

No. of Functional Features Included in the Solution

Date	14 July 2026
Team ID	
Project Name	Personalized Networking Assistant
Maximum Marks	5 Marks

Functional Features Overview:

This document presents the six implemented functional capacities of the **Personalized Networking Assistant**, based on the corresponding project repository audit. The solution combines secure user profiles, configurable pricing tiers, live Wikipedia verification, Gemini-powered networking content generation, persistent SQLite history, and interactive feedback analytics.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Registration, Login & Detailed Profiles	Creates secure accounts using bcryptjs password hashes and supports professional profile details such as profession, role, career goals, and interests.	User / Profile Service	Done	8
2	Customizable Pricing Tiers	Provides Basic, Executive, and Enterprise tiers with custom contribution values for premium plan selection.	Onboarding / Pricing	Done	6
3	Live Wikipedia Fact-Checker	Queries Wikipedia APIs to verify event niches or company backgrounds and displays factual background information in the client UI.	Fact-Check Service	Done	8
4	22-Category AI Starter Generator	Uses Gemini server-side to generate conversation scripts grouped by networking scenarios, including lobbies, speaker transitions, follow-ups, pitches, and elevator lines.	Gemini AI Service	Done	12
5	Connection History & Persistent Logs	Stores previous generations in SQLite with searching, sorting, and row-deletion capabilities.	History / Database Service	Done	7
6	Rating Loops & Interactive SaaS Analytics	Supports likes, dislikes, star ratings, and comments that feed an analytics dashboard with satisfaction metrics over time.	Feedback / Analytics Dashboard	Done	9

Feature Summary:

Metric	Count / Value
Total Functional Features	6
Features Implemented	6
Core AI & Verification Features	2
Account, Profile & Pricing Features	2
History, Feedback & Analytics Features	2
Features Listed as Implemented in Repository Audit	6

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User & Onboarding	2	Registration, detailed profiles, customizable pricing tiers
2	AI & Factual Intelligence	2	Wikipedia fact-checker, 22-category Gemini starter generator
3	Database / Persistence	1	SQLite connection history and persistent generation logs
4	Feedback / Analytics	1	Likes, dislikes, star ratings, comments, and SaaS analytics dashboard
